

About us

After a decade of success in the construction sector, in 2013 LGB Investments (A subsidiary of Myeni Group) established a ready mix concrete plant operating as Gyxi concrete. Currently Gyxi concrete plays an important role in a very competitive environment of readymix concrete.

Gyxi concrete has over 40 years experience in concrete. We offer a wide range of concrete solutions, from standard concrete mixes, pump mixes, water retaining concrete, specialised concrete, concrete blocks. We have our flagship plant in Empangeni, that has a capacity of 50 cubes per hour, and 2 other plants in Limehill and Nquthu. We have a fleet of trucks that include a concrete boom pump.

Our Mission

Is to be the pre-eminent concrete construction company through continuous improvement and our commitment to Safety, Customer, People, Quality and Value.

Safety: Building an Incident and Injury Free environment through individual commitment to the safety and well-being of each other and our clients.

People: Employing people who continually strive for excellence by creating cohesive, collaborative work teams that perpetuate the “no gap” philosophy.

Quality/Service: Delivering unparalleled, high-quality workmanship and service.

Customer: Building lifelong, professional relationships, both internally and externally, based on trust, integrity, and competency.

Value: Producing more with less through effort and stable performance of cost and productivity

Gyxi concrete culture is aiming at pushing our limits to allow our clients to expect more. With responsiveness, flexibility, and open communication, Gyxi concrete is dedicated to creating a strong, lifelong relationships with our clients and our own employees. At Gyxi concrete, we don't just work together; we support, protect, and encourage each other.

"At Gyxi concrete, we don't simply write a mission statement and frame it on a wall. We live it. Every aspect of how we work has been built to fulfill our mission to make lasting contributions to our people, our communities, and the construction industry. From teamwork to a continued commitment to hard work and performing with excellence, our values are obvious in every environment we occupy.

But most simply, we're proud to hear our colleagues saying that Gyxi concrete is a great place to work, and hear our clients say we're a great concrete manufacturer and supplier to work with."
